About the Journal

Journal of Commerce and Trade (JCT) is an **International Double Blind Reviewed, Indexed and Referred Bi-annual Publication** of the Society for Advanced Management Studies in association with Global Foundation for Research and Academic Development. It was started in October, 2005. It is both a **Print and Online Journal** and is published in the months of April and October every year.

The Journal is registered with RNI bearing No. Delhi UPENG 2006/17831 and is also recognized by ISSN (Print) 0973-4503 and ISSN (Online) 2454-1702. It is an International Journal intended for Professors, Scholars, Teachers, Academicians, Professionals and Students. It has been allotted impact factor 3.860 by Cosmos Foundation.

The Journal welcomes new, bonafide and genuine researches in the field of Commerce, Economics, Law, Management and Trade. Articles, Case studies, Discussions, Book Reviews and Biographies of the Legends in above fields are given place in the JCT. It, also, throws the light on the contemporary issues of global interests in Commerce and Management.

It has the following repositories : **Cabell's Directory, USA; Ulrich Directory; Cite factor; RePEc, Econ Biz, Idea, CC-BY, Journal Seek Directory and Connect Journals.** All the articles are published only after the proper approval of the Editorial Board and the Blind Review Committee. The submitted articles are published in the consultation with the Editors and Editorial Board's decision. The acceptance and rejection is informed by email. The submitted papers should be as per Submission Guidelines and should be in Scholarly Style. All the information regarding the journal, its periodicity, subscription details are available on journal's website www.jctindia.org. All the back issues of the journal are available free of cost on website.

The template of the paper, submission guidelines and other support regarding the writing of the paper are given on the website of the journal. The Journal's website www.jctindia.org is the best interactive and supportive journal website on the net.

JCT never rejects any article. It asks only for improvements and modifications.

All the submitted manuscripts are scanned via **Anti-Plagiarism Software** and **Google Search**.

Journal of Commerce and Trade is both a **Print and Online Journal**. You can also see, explore and print previous issues simply by login on our Home Page. JCT can be subscribed at National and International levels.

Online Payment Facility is also available on the JCT Website.

‘Swachh Bharat Mission’ of PM NAMO has more bright meaning than it appeared two years ago. The public has undertaken it as a simple hygiene message programme.

It is first time when a PM has crafted a conscious desire to move beyond partisan political concerns and addressed societal themes that touch people’s daily lines through a free-reach radio talk ‘Mann Ki Baat’.

Modi showed his position above political dogma and political puppetry shows. He analysed what can start the economy with a justified paddling towards a right direction. He did not follow any ‘Bakwas’ policies whether they were opposed or favoured by earlier governments. Which had been a trend of Indian political Drama. Modi has undertaken an expansionist approach that is best described as Keynesian.

Modi appreciated and revived previously opposed MNREGA and AADHAR schemes, which had been debunked by BJP. And, stored cold Privatisation which Atal Bihari Vajpayee favoured previously.

Modi and his team has done a lot to India with par-excellence, honesty, devotion and continuity. The Railways and the railway stations, the oil prices, the LPG subsidy allocation, the LPG availability, the power, the security issues, the banking reforms and everything is being dealt very smartly only to give smoothness to the lives of Indian citizens. Corruption is lowered. The development process is energized with speedy corrections in the economy.

The foreign visits of Modi have been objected by various politicians. But, these visits are not simple “sight seen visits”. It has strengthen the image of India beyond India. It has given stability in the relations with the World. It has been a trend that the most powerful PMs in the world have traveled maximum number of the countries in 10 months after swearing-in of the post.

Here to note, correction in RBI policy of Inflation control has also been initiated through inflation targeting framework. For this, the RBI Act, 1934 was amended as part of the Finance Bill. In the past, the RBI had not systematically used either CPI or WPI as the inflation target. Soon, the government will notify the level of inflation, it wants the RBI to largest in the next five years.

Modi, no doubt has substituted political dogmatic absolutes to managerial flexibility. Modi has proved to be a real Leader than a Boss. If he has worked continuously for 10 years like this, India will become not only world leader undoubtedly but will be a different country also. Help to come Modi Revolution and Condemn “Yaha to Aise hi Chalega” team of years.

Now, you have 21st issue in your hands. I am thankful to all concerned and associated ones. We have done a lot and trying to give more value to the writings of our learned authors. If you have any suggestions, please write to me at editorjct@gmail.com.

Dr. Himanshu Agarwal
